- ⊙ Sign in
- ⊙ Application Policy
- ⊙ Event/Message
- ⊙ Silent on/off

Benefits of Classroom Management

“Classroom Management on Mac helps me save time by allowing me to prepare the courseware beforehand and provides the feature with which I can switch between multiple media sources quickly in class. In the meantime, it helps students to focus on class with diversified activities.”

Interactive Teaching & Learning

Classroom Management on Mac is equipped with powerful functions for teachers to accomplish the teaching objectives entertainingly and effectively. This teaching mode helps teachers to develop an interactive teaching process and can improve students' attention to the class.

Powerful Management

In order to make the classroom management easier and more convenient, Classroom Management on Mac provides the functions to remote reboot and shut down students' devices. And the teachers can ask the students to sign in at the beginning of class and distribute or collect files from all or selected students.

Instant Monitor & Assistance

Classroom Management on Mac provides teachers with the tools to monitor the screens of the students and teachers can assist students' works remotely. To improve class efficiency and encourage communication between teachers and students, text messages is also available in class.

Convenient Assessment

With a set of practical features, Classroom Management on Mac enables teachers to assess students' progress by quiz. The teacher can also conduct an instant survey with one question to test students. Quiz and survey are useful tools for evaluating individual learning outcome during lectures and discussions.
